

Crypto Inheritance Checklist

Sentinel Enterprises LLC

Make sure your family can actually find and inherit your crypto

Don't Let Your Crypto Die With You

This checklist walks you through exactly what to do — step by step — so your family isn't left with digital assets they can never touch.

Before you begin

Set aside 30 quiet minutes, a pen, and a piece of paper. That is genuinely all you need to get started.

What Is Cryptocurrency? (For Beginners)

Think of cryptocurrency like digital cash stored in a special locked box. You have a KEY (called a seed phrase or private key) that opens the box. If no one knows where the key is, the money is GONE FOREVER.

SEED PHRASE = KEY

YOUR FAMILY

The key (seed phrase) unlocks your wallet. Your family needs to know where that key lives.

WARNING

Over \$140 billion in crypto is LOST FOREVER because owners never told anyone where their keys were. Do not let your savings become part of that number.

The 12-Step Checklist

Check off each item as you complete it. Work top to bottom — each step builds on the one before.

- ☐ Step 1: Write down your seed phrase (12 or 24 words) on paper — never on your phone or computer.
- ☐ Step 2: Store the seed phrase in a fireproof safe or safety deposit box.
- ☐ Step 3: Write down which wallets/exchanges you use (Coinbase, Ledger, MetaMask, etc.).
- ☐ Step 4: Write down the approximate value of each account.
- ☐ Step 5: Create a document called "Crypto Access Letter" (see page 4).
- ☐ Step 6: Tell ONE trusted person this letter exists and where it is.
- ☐ Step 7: DO NOT put the seed phrase in your will (wills become public).
- ☐ Step 8: Set up a hardware wallet for large amounts (Ledger or Tangem).
- ☐ Step 9: Review and update this every 6 months.
- ☐ Step 10: Make sure your beneficiary knows what crypto IS.
- ☐ Step 11: Consider a crypto-specific trust for amounts over \$50,000.
- ☐ Step 12: Consult with an estate attorney who understands digital assets.

What to Write in Your Crypto Access Letter

This is a simple letter you write by hand or type and print. It is NOT your will. Include each of the labeled pieces below.

- 1 Your full name**
So your family is certain the letter is yours.
- 2 Today's date**
So they know how current the information is.
- 3 List of wallets & exchanges**
Every place you hold crypto, by name.
- 4 Where seed phrases are stored**
The safe, the box, the location — not the words themselves.
- 5 Who to contact for help**
A trusted helper or an attorney who understands crypto.
- 6 Your wishes for the crypto**
Who should receive it and any instructions you have.

Remember

Write the LOCATION of your seed phrase, never the actual words. The words belong only in your fireproof safe.

4 Common Mistakes (And How to Avoid Them)

Mistake 1

Storing your seed phrase on your phone. Phones get hacked, lost, and broken. A photo of your seed phrase is a photo of your money.

Mistake 2

Telling too many people. The more people who know, the higher the risk. Tell ONE trusted person — no more.

Mistake 3

Putting the seed phrase in your will. Wills become public record in probate. Anyone could read it and drain your wallet.

Mistake 4

Thinking the exchange will handle it. Most exchanges have no reliable inheritance process. If you do not plan, no one will.
